

ENGINEERING CONSTRUCTION ACTIVITIES

The following is a summary of the activities which are described as engineering construction activities. Establishments which are wholly or mainly undertaking such activities are liable so long as the activities are carried out in Great Britain (England, Scotland and Wales) or its offshore waters. A full definition of engineering construction activities is shown at Schedule 1, paragraph 1. of the 1991 Board Order. A copy of the Order is available in the Levy and Scope section of the ECITB's website at www.ecitb.org.uk.

PRINCIPAL ACTIVITIES

1.	Assembly, construction, dismantling, erection, fabrication, fitting, inspection, installation, maintenance, repair, replacement or testing of any chemical, electrical or mechanical apparatus, machinery or plant that is located on any site where a product is processed, including (but not limited to):- <ul style="list-style-type: none">• Chemical works• Nuclear or thermal power station• Hydro-electric station• Renewable or wind energy power station• Metal smelting• Brewing or distilling• Pharmaceutical, cosmetic and petrochemical production• Sewerage treatment works• Exploration for or exploitation of oil or gas• Gas making or gas treatment works• Nuclear waste reprocessing site• Oil refinery or oil terminal• Glass production• Steel or paper mill• Human / animal food production• Making cement and concrete bricks
2.	Planning, designing, commissioning or procuring by way of contract or otherwise of any chemical, electrical or mechanical apparatus, machinery or plant mentioned in 1. above carried on in association with any activity mentioned or in association with any project for such an activity.
3.	Supervision of the activities listed at 1. above.
4.	The erection and/or dismantling of the main framework of a building or other structure that is made of steel or other metal where the building or structure is erected or dismantled on any site (not necessarily on a site where a product is processed). Types of structures erected or dismantled could include, for example, supermarkets, warehouses, stadiums, agricultural buildings, office blocks, etc.
5.	The hiring out by an employer of individuals in his employment to employers who are engaged in any of the activities listed above where the individuals being hired out will be engaged in such activities.

RELATED ACTIVITIES

The following activities are related activities provided they are incidental or ancillary to the principal activities of the engineering construction industry.

- Research, development, design or engineering construction drawing (either created by hand or by computer related software) or dynamic simulation
- Buying, selling, hiring out, testing (including NDT), advertising, packing, distribution, transport or any similar operations
- Operations of a kind performed at office premises or laboratories, or at stores, warehouses or similar places
- Cleaning, washing or garaging vehicles or carrying out running repairs or minor adjustments thereto
- Training of employees or apprentices

OTHER ACTIVITIES

Provided an establishment is wholly or mainly engaged in the principal and related activities of the engineering construction industry, the following activities are also engineering construction activities.

- Any activities undertaken in the administration, control or direction of an establishment or establishments.
- Any activities of industry or commerce.

BUSINESS & ACTIVITY RETURN

The ECITB is a Statutory Training Board set up by Government in 1991 to promote and improve training in the engineering construction industry. Employers who operate establishments which are wholly or mainly engaged in engineering construction activities are registered with the ECITB and assessed annually for industrial training levy. The levy collected is used by ECITB to fund the various training services and support that it offers to the industry.

A summary definition of "engineering construction activities" is shown on page 4 of this form.

This Return is required to enable us to assess whether or not your business should be registered with us. **Section 10 of The Industrial Training Act 1982 entitles us to request this information and you are obliged to provide the information requested.** All information declared is kept confidential and will only be disclosed if there is a legal requirement to do so.

Please send the completed form to ECITB, Blue Court, Church Lane, Kings Langley, Hertfordshire, WD4 8JP. When returning the form, it would be most helpful if any literature describing the activities of the business could be included.

If you have any questions about how to complete the form, please telephone 01923 402134. If you would like more information about the ECITB, its statutory remit or details of our training products and services, please visit our website at www.ecitb.org.uk.

GENERAL INFORMATION

Full name and postal address of the business

Phone

Fax

Website address

Does the business operate as:

A limited company A partnership A sole trader A separate division within a larger organisation

Full name of the employer of the business' employees, if different from above.

Companies House Registration Number
(if applicable)

When did the business start trading?

Is the business registered with the
Construction Industry Training Board (CITB)?

STRUCTURE AND ACTIVITIES OF THE BUSINESS

Please give details on how the business is structured, i.e. the management structure, whether there are other parts of the business at different locations, whether there are separate divisions operating within the overall business.

Please describe the activities generally undertaken by the business. If you have a brochure, other literature or a website which describe the activities, it would be most helpful if you provide the information when returning this form.

Please list the main clients of the business.

ACTIVITIES CARRIED OUT ON CLIENTS' SITES

Does the business generally carry out activities on any of the following types of sites?

Breweries / distilleries	Paper mills	
Cement or brickworks	Petrochemical sites	
Chemical works	Pharmaceutical / cosmetic production	
Electrical works	Power stations – nuclear/hydro electric/thermal	
Food processing sites	Renewable energy sites	
Glass works	Steel mills / metal smelting works	
Gas making / treatment works	Water treatment / sewerage works	
Nuclear reprocessing sites	Sites where structural steelwork is erected or dismantled	
Offshore installations	Other product processing sites (please give details below)	
Oil refineries / terminals	Other types of site not already listed, for example, hospitals, schools, ships (please give details below)	
Oil tankage / storage		

What activities does the business carry out on clients' site?

Does the business undertake any of the Principal or Related Activities described on page 4?

What types of workers does the business generally employ or hire to work on clients' sites?

For example, welders, pipefitters, platers, mechanical fitters, electricians, technicians, supervisors, engineers, etc.

Typically, how many employees and contract staff does the business employ or hire to mainly work on client's sites?

Number of employees:		Number of contract staff:	
----------------------	--	---------------------------	--

FABRICATION / MACHINE / MANUFACTURING SHOP

Does the business operate a fabrication, machine or manufacturing workshop at its own premises? If yes, approximately how many workers are engaged in fabrication, machining or manufacturing?

Does the workshop operate from the same address as the rest of the business?

Is the workshop operated as a separate part of the business?

OTHER ACTIVITIES UNDERTAKEN BY THE BUSINESS

Apart from activities carried out on clients' sites or in workshops, what other activities does the business carry out?

For example, planning, designing, commissioning, procurement, consultancy, managerial activities, administration, HR, finance, and any other activities.

Where are these activities undertaken?

What types of workers are generally employed or engaged in these activities?

For example, directors, managers, supervisors, engineers, technicians and any other professional staff not working on clients' sites, HR, clerical and accounts staff, etc.

Typically, how many employees and contract staff are engaged in these areas of the business?

Number of employees:		Number of contract staff:	
----------------------	--	---------------------------	--

CONTACT PERSON AND SIGNATURE

Please give details of the person to whom any future correspondence from the ECITB should be addressed.
