

Engineering Management Partnership (EMP) Post Graduate Certificate in Engineering Management

Essential Training to Develop Skills

The Post Graduate Certificate in Engineering Management offered by the ECITB in partnership with EMP is a modular programme that can be completed via distance learning or through tutorial attendance. EMP is a consortium of the Universities of Bath, Bristol, Bradford and Loughborough.

Purpose of the programme

The programme aims to provide Graduates with strong management and leadership skills, as well as the knowledge needed to radically improve the performance of their departments and organisations. It seeks to blend existing technical skills with strategic, conceptual and people management skills, and to develop Engineering Managers with strong implementation capabilities.

Who should follow the programme?

The programme is aimed at ambitious individuals with a good degree or equivalent in a relevant discipline who are looking to progress, or who have already progressed, to a managerial role.

The programme in detail

The programme consists of the following six Modules:

- ▶ Competitive Business Environment }
▶ Project Management } assessed by assignments
▶ Human Resource Management }
▶ Marketing Management }

▶ Financial Management } assessed by examination
▶ Operations Management }

Each Module is supported by a series of three individual one-day group tutorials, delivered at locations throughout the UK. In-house tutorials can also be offered for companies with five or more students.

The programme may be taken over either 12 or 24 months and candidates can enrol at anytime.

The Benefits of EMP Post Graduate Certificate in Engineering Management

Organisation
