What is the Engineering Construction Scholarship Programme?

The Engineering Construction Industry Training Board (ECITB) are working in partnership with a number of training providers to offer an excellent opportunity for those aspiring engineers of the future that wish to pursue a career within the Engineering Construction Industry (ECI).

Now in its second year, the ECITB Scholarship Programme is a *one or two-year course that will support learners to pursue a full time off the job programme in a craft or technical discipline. During their studies learners will acquire Nationally recognised engineering qualifications as well receiving other skills training relevant to their chosen discipline. The scheme offers employers an excellent opportunity to recruit a young person who has had the requisite training to be either fast-tracked into an apprenticeship or be recruited as a direct site hire. To support the learners on this full time programme the ECITB will pay an allowance of £140/week during term time.

* Level 2 (SCQF level 5) is a one-year programme and Level 3 (SCQF level 6/7) is a two-year programme.

What does it involve?

- Skills and knowledge training for five days a week over one or two academic years.
- ECITB Digital Passport.
- ECITB foundation and work based online knowledge test.
- Gaining Nationally recognised industry qualifications.
- A Health and Safety Passport (CCNSG).
- Interaction with ECI employers.
- £140 a week learner allowance during term time.

Becoming trained and qualified in one of the following occupations:

Craft:

- Pipefitting
- Mechanical Installation
- Pipe or Plate Welding
- Electrical Installation
- Rigging and Erecting
- NDT
- Fabrication/Welding

Technicians:

- Design and Draughting
- Project Control
- Mechanical maintenance
- Electrical maintenance
- Instrumentation and control
